

# AVOID THE MOST **UNPROFITABLE SIGN** IN THE BUSINESS...USE BULK CO<sub>2</sub>

In today's busy food service operation, you don't always have the time or manpower to change high-pressure cylinders when you run out of CO<sub>2</sub>. When your fountain systems go down and the **OUT OF ORDER** sign goes up, high margin profits disappear.

There is an affordable solution – the Carbo Series bulk CO<sub>2</sub> system. The Carbo Series tank is a low-pressure, permanently installed bulk CO<sub>2</sub> system that is connected to an outside wall box. Your bulk CO<sub>2</sub> supplier routinely tops off your tank – eliminating CO<sub>2</sub> outages so you can focus on customer sales at lunch rush rather than gas inventory.

**CHART BEVERAGE SYSTEMS**  
THE HIGHEST QUALITY BULK CO<sub>2</sub> SYSTEMS  
IN THE WORLD

**1-800-247-4446**

The Carbo Series systems provide these benefits:

#### **Convenience**

Eliminate high-pressure cylinder change-outs and gas outages during peak rush periods. Enable a better use of employees and storage space.

#### **Quality**

Uninterrupted flow of CO<sub>2</sub> eliminates flat drinks and ensures proper drink calibration. Perfect soda dispensing presentation increases customer satisfaction and eliminates complaints of poor taste and flat beverages.

#### **Safety**

Gas stored at low operating pressure, plus zero cylinder handling, reduces job-related injuries.

#### **Savings**

Save on labor, lost residual gas and operational costs associated with the high cost of high-pressure cylinders.

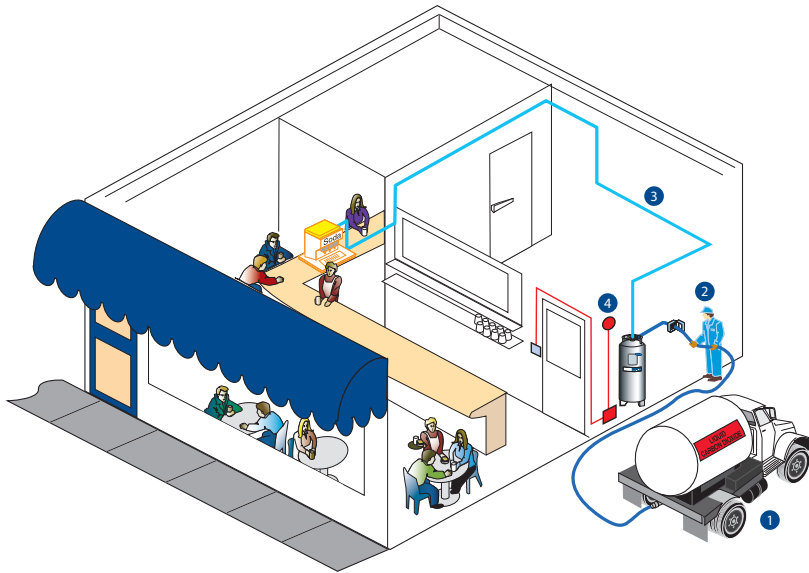

*Innovation. Experience. Performance.™*

Ensuring the perfect beverage pour. Every day - All day

## The Chart Beverage System

One Carbo Series bulk system meets all of your CO<sub>2</sub> requirements. The system requires zero employee handling and provides a continuous supply of CO<sub>2</sub>.

- ✓ **Stationary automatic system**  
100% stainless steel construction, permanently installed and self-contained with no electricity required
- ✓ **Maximizes limited space**  
One system replaces all of your high-pressure cylinders, using less than 3 sq. ft. of floor space or install outdoors
- ✓ **Sized to match usage needs**  
Available in a variety of sizes, the Carbo Series will meet the unique demands of your business volume

**Carbo Series Bulk CO<sub>2</sub> Systems**

**Maximize Your Beverage Profits -**  
It works like this:

- 1 Liquid CO<sub>2</sub> is delivered in bulk right to your store.
- 2 Liquid CO<sub>2</sub> is securely transferred through the outside wall of your store into a bulk CO<sub>2</sub> storage tank.  
*Note: The bulk CO<sub>2</sub> tank can also be installed outdoors.*
- 3 CO<sub>2</sub> gas is dispensed from the bulk CO<sub>2</sub> storage tank, providing a perfect beverage pour, every time.
- 4 A CO<sub>2</sub> Monitoring System assures the safety of your working environment.
