03/24/2020

We continue to prioritize the safety of our staff, customers, and our community while remaining open to support our customers. Because our business is critical to sustaining the ongoing functions of our local economy – from healthcare, to food production, power and energy, transportation and logistics, and building and distribution to name a few - Welders Supply is an essential supplier as identified by:

- the Cybersecurity and Infrastructure Security Agency within the Department of Homeland Security.
- categorization as a life-sustaining retail business in Executive Order 2020-246 issued by Andy Beshear, Governor of Kentucky on 3/22/2020.

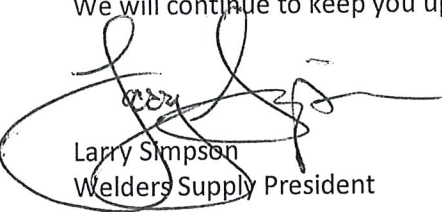

We encourage customers to follow World Health Organization social distancing advice while on premises, or placing orders for direct delivery by phone or via myweldaccount.com, or calling ahead so that we can prepare your order for pickup. Customers can choose their preferred way to contact us. We are committed to being here for you.

Our dedicated employees are taking precautions, including washing hands, social distancing so that we limit interactions, wiping down devices, and staying home if we are sick or in contact with someone exposed to the virus. We believe our commitment, extensive resources, and strong local presence position us well to respond to your needs.

Updates to our store procedures have been made and will be implemented with start of business Tuesday 3/24/2020:

- We are limiting customers inside the facility to maintain physical distancing and help ensure the health, wellness, and safety of our staff and our customers.
- We have posted signs that anyone who is sick or feels sick to not enter our facility.

We will continue to keep you updated.

Larry Simpson
Welders Supply President
